

HydroTerra
Environmental Monitoring Specialists

WORKSHOP SERVICES

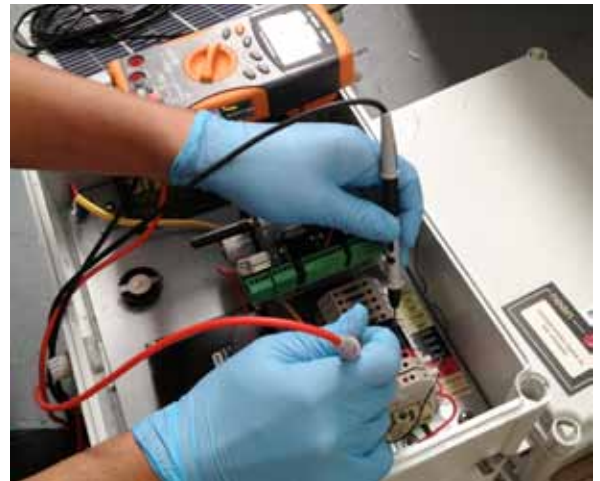

Repairs & Maintenance

HydroTerra's in house Workshop undertakes repair, maintenance, and calibration of all environmental monitoring equipment, whether purchased from us, or elsewhere.

The Workshop provides both preventive maintenance as well as fast response time for equipment repair.

The Workshop services include:

- Repair & Maintenance for a wide variety of monitoring equipment
- Agreed price servicing contracts for equipment purchased from HydroTerra
- Service contracts for maintenance and calibration of client owned equipment
- Support for rental and client equipment on long term maintenance contracts

To discuss this service please contact HydroTerra on the details below, or email us at info@hydroterra.com.au

Richard Campbell (*Managing Director*) — P 0400 150 124 E richard@hydroterra.com.au

Ryan Yun (*Instrumentation Technician HydroTerra*) — P (03) 8683 0091 E ryan@hydroterra.com.au

HydroTerra specialises in the hire, sales and installation of high quality monitoring, sampling and remediation equipment for groundwater, surface water, soil and atmospheric applications.
