Levelogger Direct Read to Optical Adaptor

## Overview

The Levelogger Direct Read to Optical Adaptor is designed to be used in place of a Direct Read Cable, when the extra cable length is not required. This allows it to be used for multiple communication or deployment purposes. The Adaptor can be used to connect your Levelogger to a Levelogger App Interface, an SDI-12 Interface Cable, PC Interface Cable, or deploy a Barologger inside an STS enclosure.

Levelogger App Interface

STS Reader Cable

PC Interface Cable

SDI-12 Interface Cable
