

Drill & Drop™ Bluetooth® Probe

Long-life | Tapered | Quality

Cable free probe with a long-life battery.

Designed for ease of use, the data is collected via your phone using an app and the Bluetooth® connection.

Features

- Tapered shape allows for extremely fast and high-quality undisturbed installation in majority of soil types
- Ability to measure the true soil profile, NOT slurry
- Pre-normalised sensors with inbuilt default soil calibration
- Soil moisture charts are displayed in IrriMAX Live through any web browser on your phone or laptop
- Available with moisture, salinity, and temperature sensors at every 10 cm (4") depth

Benefits

- Best choice for vegetable crops, due to the fast and easy install and extraction techniques
- Ideal for use in areas without mobile reception, simply download the data to your phone in the field and upload later when back at the office
- Manage irrigations to save water, power, fertiliser, and time, for increased yields and quality
- Fast and undisturbed, slurry-free installation procedure, increasing the validity of soil moisture and salinity readings
- Combine soil moisture, salinity, and temperature readings to see what is happening in the soil profile
